## How to use this guide

---

The Purolator Rate Guide has been created to help you quickly and easily calculate your shipping rates for shipments worldwide. Use this Guide, along with your Purolator Zone Guide (available at [purolator.com/rates](https://purolator.com/rates)) to determine your shipping rate. Purolator's list rates are calculated based on your origin postal code (the postal code you are shipping from), the weight of your shipment, the shipment's packaging, how soon you want your shipment to arrive at its destination and the destination postal code, zip code or country.

### Follow these simple steps to calculate your shipping rate:

1. Use the Purolator Zone Guide to reference the specific Zone Table (e.g., Services within Canada) that corresponds to your shipment destination. Locate your specific destination and corresponding zone, which is represented by a zone code (e.g., D02). Remember this zone code.
2. Select your preferred delivery service option (e.g., Purolator Express® 9AM) based on how soon you want your shipment to arrive at its destination, and turn to the corresponding page. For further details on our delivery options, refer to Purolator Delivery Services.
3. Establish the total weight of your shipment by adding together each package's incremental weight and rounding up to the nearest whole number (e.g., 15.1 lb. rounds up to 16 lb.).
4. The list rate for your shipment will be where the zone code (e.g., D02) meets the weight of your shipment (e.g., 16 lb.).

5. Once you have determined your shipping rate, turn to the section entitled Purolator Specialized Services and choose from our additional service options to help complement your shipping needs.
6. You are now ready to send your shipment with Purolator. You can choose to ship online at [purolator.com](https://purolator.com); ship using Purolator E-Ship® Web Services, Purolator E-Ship® Server, Purolator E-Ship® Now, Purolator E-Ship® EDI or Purolator E-Ship® Certified Providers; visit a Purolator Shipping Centre, a Staples® or PostNet® location, a Purolator Authorized Shipping Agent or one of our drop boxes; or contact us via Live Chat at [purolator.com](https://purolator.com) or call **1 888 SHIP-123** to schedule a pickup.

Please note that the Purolator Terms and Conditions of Service, available at [purolator.com](https://purolator.com), will prevail in the case of any inconsistencies between this document and the Purolator Terms and Conditions of Service.

## Adult Signature Required

Adult Signature Required (ASR) is a value-add service offered by Purolator for shipments within Canada requiring proof of age from a recipient at the address a package is delivered to. Recipients must present valid government-issued photo ID with proof of age at the time of delivery. When the Adult Signature Required option is selected, the ASR charge will be applied to the shipment (in addition to any other fees that may apply to the shipment). This service is available through Purolator's E-Ship® Online and E-Ship® Web Services .

**\$8.00 per shipment**

---

## Chain of Signature

Our Chain of Signature (COS) service provides secure transportation of certain controlled drugs, firearms, government assets, and cannabis within Canada that require multiple signatures throughout the transportation route. Only pre-authorized customers vetted and approved by an authorized Purolator loss prevention specialist may send COS shipments. If you ship high volumes of COS shipments, we can provide automated solutions to streamline your shipping process. For added convenience, standard shipping stickers or standard thermal labels can be used for COS shipments. These shipping stickers/thermal labels are available online through our Purolator E-Ship Solutions, or by calling 1 800 459-5599.

**\$16.50 per piece**

## Customs Clearance Charges

When shipping to the U.S. or other international destinations, some shipments are subject to the assessment of customs clearance charges (e.g., duties and taxes) imposed by the importing country's government. It is imperative to consider the effect of these customs clearance fees when determining your shipping costs. Our shipment rates and additional charges do not include applicable customs clearance fees. Any clearance fees related to the shipment must be paid to Purolator, Purolator's designated customs broker or your own customs broker, as applicable.

Customs clearance charges (e.g., duties and taxes) may apply.

## Signature Required (Residential)

We offer a Signature Required option for shipments destined for delivery in a residential area. If you require a signed proof of delivery and your shipment is prepared using our Purolator E-Ship® Solutions, you must select that the shipment requires a signature. If you do not make this selection, the shipment will default to the O-SNR (Origin Signature Not Required) service. When the shipment is prepared using a manual bill of lading, the shipment will travel as a shipment requiring a signature and will be subject to the Residential Delivery charge, not the Signature Required (Residential) service. Note: If the receiver has selected the SNR (Signature Not Required) service, the SNR service will override a shipper's request for a signature.
